

Acceptable Out-of-State Associate Degrees

Central Washington University accepts academic associate degrees with a cumulative college-level GPA of a minimum of 2.00 from colleges accredited by the Northwest Commission on Colleges and Universities (NWCCU). The following associate degrees will satisfy Central's general education requirements; however, this does not guarantee junior status or 90 quarter credits. The associate degree must be earned at least one quarter prior to earning the bachelor's degree. Completion of a transfer degree does not guarantee acceptance into a specific major at CWU. This agreement began Fall quarter 2000.
